

Sprint 4 Plan

Product: Study Cats

Team: SmittenKittens

Sprint Completion Date: 12/02/2018

Revision: 1

Goal:

- As the user, I want animated cats to appear periodically on the screen as I study so I am motivated to continue to study.
- As the user, I wish to be able to create a timed study session for my studies so I am able to keep focus.
- As the user, I wish to have a variety of cats so I am more motivated to study.
- As the user, I wish to save my study times, and create future study plans so i can remain on top of my work in calendar form.

★Bonus Goal★:

- As the user I wish to have music to help me study so I am more productive during my study session:

Task listing, organized by user story:

- As the user, I want animated cats to appear periodically on the screen as I study so I am motivated to continue to study.
 - Task 1: Make cat appear while user created a study session with timer
 - Task 2: Create new cats animation? Walking cat? Reading book cat?
- As the user, I wish to be able to create a timed study session for my studies so I am able to keep focus.
 - Task 1: make timer run on all views
 - Task 2: remove the placeholder text for to-do list once the user click on to write more list
- As the user, I wish to have a variety of cats so I am more motivated to study.
 - Task 1: Implement randomized cats for our app
- As the user, I wish to save my study times, and create future study plans so i can remain on top of my work in calendar form.
 - Task 1: Under calendar button implement google calendar on app

Team roles:

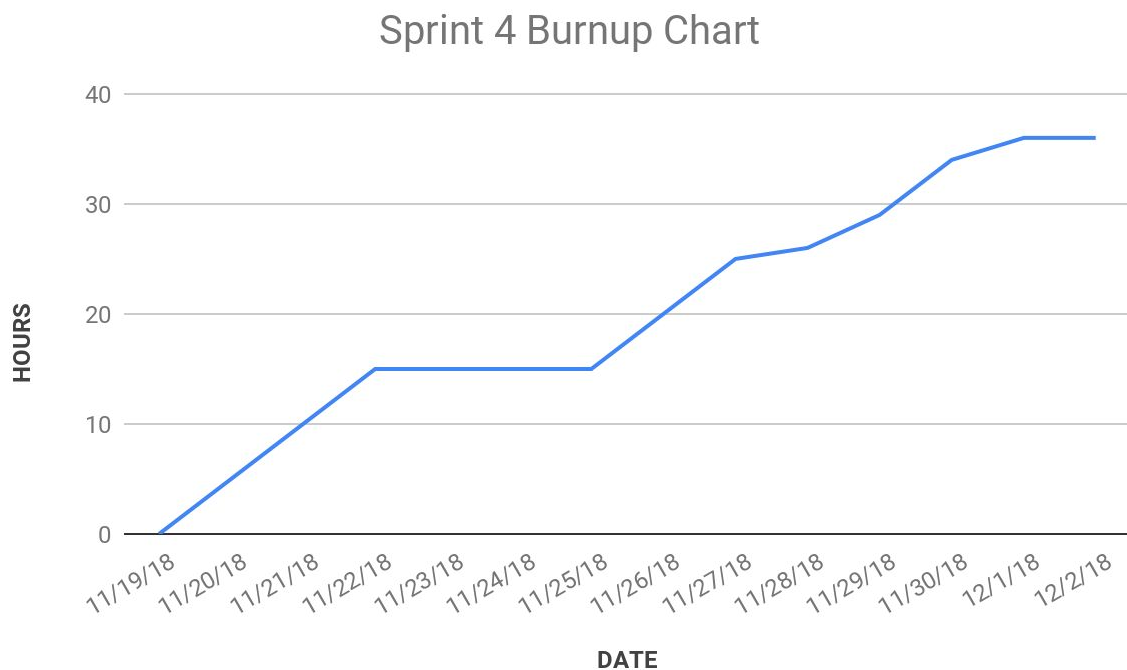

Product Owner: [Camille]

Scrum Master: [Evan]

Team Members: [Cesar, Youmna, Cheyenne]

Initial task assignment:

- Google calendar implementation (Cheyenne)
- Create new cats animation? Walking cat? Reading book cat? (Camille, Cheyenne, Youmna, Evan, Cesar)
- Make timer run on all views (Camille)
- remove the placeholder text for to-do list once the user click on to write more list (Youmna)
- Make cat appear while user created a study session with timer (Evan)
- Implement randomized cats for our app (Cesar)
- Scale the clock on all devices (Youmna)

Initial scrum board:

User Story	To-Do	Doing	Done
As the user, I want animated cats to appear periodically on the screen as I study so I am motivated to continue to study..	Task 1: Make cat appear while user created a study session with timer Task 2: Create new cats animation? Walking cat? Reading book cat?	Task 1: Make cat appear while user created a study session with timer	
As the user, I wish to be able to create a timed study session for my studies so I am able to keep focus.	Task 1: make timer run on all views Task 2: remove the placeholder text for to-do list once the user click on to write more list	Task 1: make timer run on all view Task 2: remove the placeholder text for to-do list once the user click on to write more list	
As the user, I wish to have a variety of cats so I am more motivated to study.	Task 1: Implement randomized cats for our app	Task 1: Implement randomized cats for our app	
As the user, I wish to save my study times, and create future study plans so i can remain on top of my work in calendar form.	Task 1: Under calendar button implement google calendar on app	Task 1: Under calendar button implement google calendar on app	

Scrum times:

Monday: 11:45 - 12:00

Wednesday: 11:50 - 12:30

Friday 11:45 - 12:30

TA meeting:

Friday 12:30 - 1:00 pm
