

Sprint 3 Plan

Product: Study Cats

Team: SmittenKittens

Sprint Completion Date: 11/05/2018

Revision: 1

Revision Date: 11/05/2018

Goal:

- As the user, I want animated cats to appear periodically on the screen as I study so I am motivated to continue to study.
- As the user, I wish to be able to create a timed study session for my studies so I am able to keep focus:
- As the user, I wish to have collectable cats so that I am more motivated to study
- As the user, I wish to save my study times, and create future study plans so i can remain on top of my work:

Task listing, organized by user story:

- As the user, I want animated cats to appear periodically on the screen as I study so I am motivated to continue to study.
 - Task 1: Make cat appear while user created a study session with timer
 - Task 2: Create new cats animation? Walking cat? Reading book cat?
- As the user, I wish to be able to create a timed study session for my studies so I am able to keep focus:
 - Task 1: make timer run on all views
 - Task 2: create a break for 2 minutes in case user gets distracted
 - Task 3: implement scroll down for the to-do list
 - Task 4: remove the placeholder text for to-do list once the user click on to write more list
 - Task 5: Scale the clock on all devices
- As the user, I wish to have collectable cats so that I am more motivated to study
 - Task 1: Implement randomized cats for our app
- As the user, I wish to save my study times, and create future study plans so i can remain on top of my work:
 - Task 1: Under calendar button implement google calendar on app

Team roles:

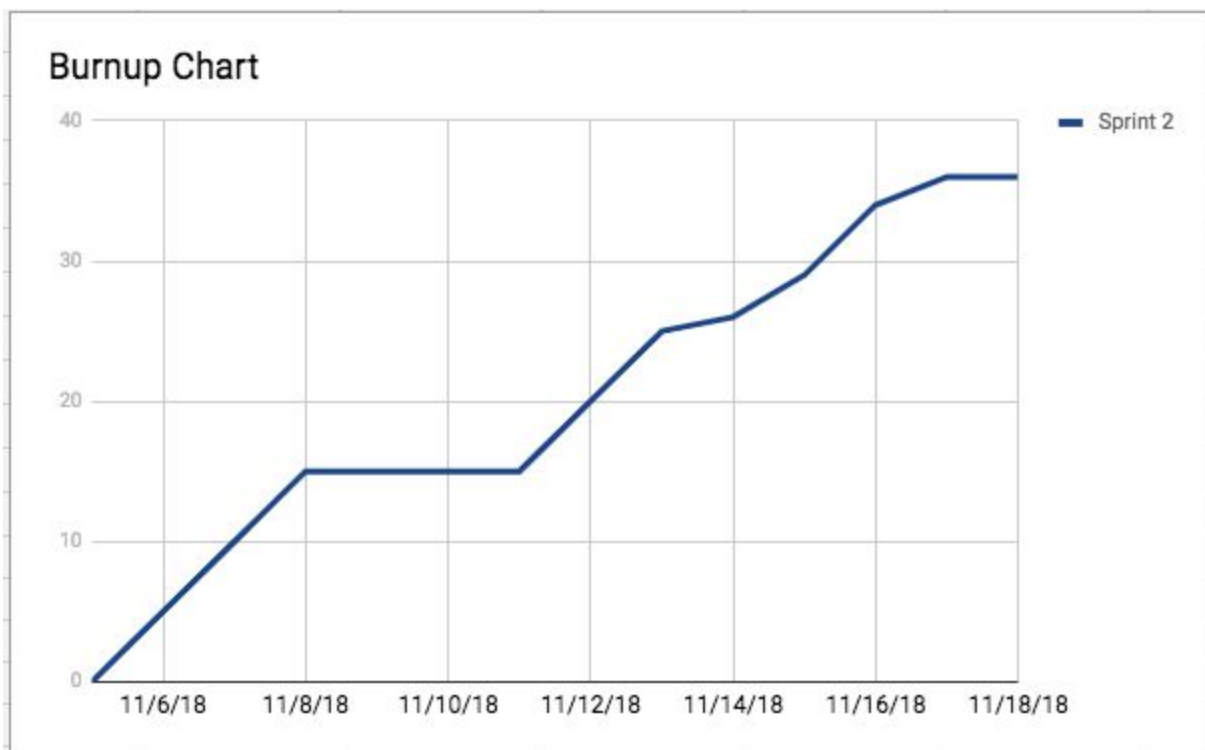

Product Owner: [Camille]

Scrum Master: [Younma]

Team Members: [Cesar, Evan, Cheyenne]

Initial task assignment:

- Google calendar implementation (Cheyenne)
- Create new cats animation? Walking cat? Reading book cat? (Camille, Cheyenne, Youmna, Evan, Cesar)
- Make timer run on all views (Camille)
- create a break for 2 minutes in case user gets distracted (Camille)
- implement scroll down for the to-do list (Youmna)
- remove the placeholder text for to-do list once the user click on to write more list (Youmna)
- Make cat appear while user created a study session with timer (Evan)
- Implement randomized cats for our app (Cesar)
- Scale the clock on all devices (Youmna)

Initial scrum board:

User Story	To-Do	Doing	Done
As the user, I want animated cats to appear periodically on the screen as I	Task 1: Make cat appear while user created a study session with timer	Task 1: Make cat appear while user created a study session with timer
