

Release Plan

Study Cat (temporary name)

[SmittenKittens]

[Study Cat] [December 2, 2018]

[revision number: 1] [revision date: October 9, 2018]

High Level Goals:

- Be able to create a study session
- Be able to log session information
- App needs to know that you are using your phone for other applications (punish by cat running away)
- Power usage needs to be at minimum
- Interaction between animated cat and person.
- Create to do list for the day
- Individual accounts (gmail account)
- Randomized cats

Additional Stuff

- Music / background noise
- Study breaks

User stories for release:

- Sprint 1:
 - I am the user, I want nice graphics and one digital cat so that I have a nice interface to work with
 - I am the user, I want digital cats so that I avoid using my phone
 - I am the user and I want to improve my study habits
 - I am the developer, I am to create an app so the user can focus.
 - I am a cat and I want to help people focus
- Sprint 2:
 - I am the user, I want a way to create study session, so I can focus and not get distracted by my phone
 - I am the user, I want my study information to be saved into app, so that I can track my improvements in study habits
 - I am developer and I want animated cats to appear periodically on the screen as the user studies
- Sprint 3:
 - I am the user, I wish to have a visual representation of what I need to study/work on in the future in calendar form, so that I can be organized in my study habits

- Sprint 4:
 - I am the user, I wish to have a todo list that I can check off when I finish an assignment/study, so I can keep organized with my assignments and stay focus.
 - I am the developer, I wish to keep my application to use power to a minimum, so that the user is motivated to keep app running in the background while they are studying.

Product backlog:

- Implement Google Calendar from the app's calendar
- Put accessories on your cats
- Deliver real cats to your door
- Connect the app to your local SPCA
- Customize your own cat
