Sprint 4 Report
Product: Study Cats
Team: SmittenKittens
Date: 12/02/2018

Actions to stop doing:
- If we were to have a Sprint 5 we would stop assigning too many tasks within a sprint, and stop assigning tasks that reply on a task that hasn't been finished yet.

Actions to start doing (if we were to have a Sprint 5):
- Breaking up the tasks into smaller tasks
- Clearly layout all tasks needed for a feature before starting to work on it
- Finish tasks

Actions to keep doing:
- Have time where we all sit down & work together (Wednesdays and Friday)
- Update the Scrum board every day (on trello)
- Communicate through Discord
- Talking through issues after scrum meetings

Work completed/not completed:
- Work completed:
    - Merged all the branches into one branch
    - Created a break for the timer
    - To-do list work globally
    - Calendar implemented
    - Timer works globally
    - Timer is working on all the simulators (scalable)
    - Cat appearance pop-in working with global timer

- Work not completed:
    - Cat randomization

Completion rate: 98%
